

July 2009,

There are a number of new additions to ClearSy this month, beginning with our participation in various events such as

- the SIFER 2009 fair (from 26th to 29th May 2009)
- the UITP 2009 fair (from 7th to 11th June 2009)

As regards our projects currently underway, we take the opportunity in this letter of presenting the **SRRT project**, a railway project in which ClearSy is actively participating.

Finally, don't miss the **RIAB (Workshop on Recent Innovations and Applications in B)**, an event enabling the reviewing of the latest innovations and possibilities of B in the industrial and university domain.

There are now 1,910 subscribers: thank you for your loyalty and happy reading!
